Dear Sir;

It has come to my attention that there exists at present a group of people selling and promoting an applied philosophy called Scientology in Burlington New Jersey.

Scientology, New Jersey

Kathy Lull, Assistant Director

I further understand that there are several complaints filed at various levels of government in the state by people who have been harmed in various degrees by the Scientology Center and the practices of this "religious" cult. In my opinion these complaints have some validity.

I could be considered by some to be an expert on the subject of Scientology, its structure, corporations and methods. Therefore I believe there could possibly be a basis of civil and/or criminal investigation and prosecution.

It has been a long time since I've asked anyone to believe me or take my word for anything or rabble rouse. I believe that the only method to expose the true nature of this dangerous "science" is to present only facts and documents from multiple sources.

The only thing I request you take is to thoroughly and independently investigate the matter and take whatever lawful action the evidence indicates.

To assist you towards this end I am furnishing you with some basic information and background source material.

The first major book on the subject "Dianetics: Modern Science of Mental Health" by L. Ron Hubbard, was written at Bay Head, New Jersey in 1949.

The Hubbard Dianetic Research Foundation was incorporated in 1950 at Elizabeth, New Jersey. Shortly thereafter it was forced to close down (and moved out of state) by legal action based on, I believe, by "practicing medicine without a license".

NOTE: L. Ron Hubbard turned Dianetics into Scientology in March 1952 at Phoenix, Arizona. Because of civil and government action the "Hubbard Association of Scientologists" (H.A.S.) was formed and later "The Hubbard Association of Scientology International"

(H.A.S.I.) was created.

In mid 1953 the H.A.S. moved to:

526 Cooper Street
Camden, New Jersey

NOTE: I believe it was an Arizona Corporation registered to conduct business in the state of New Jersey.

NOTE: Again due to civil and government actions and for the only reason that it afforded a better tax structure and ease of operation Scientology was incorporated as a religion.

In the latter part of 1953 (Oct., Nov., Dec.) at Camden, New Jersey the following corporations were created by L. Ron Hubbard.

"The Founding Church of Scientology" ✓

"The Church of American Science" ✓

"The Church of Human Engineering" ✓

NOTE: I believe they are presently inactive, being superseded by other corporations in other states including Washington, D.C. Since Scientology is continually revising its past and public image they deny the existence of these corporations. But these New Jersey corporations are, in fact, the first "religious" set up. You will notice in some of the following sources that furnishing certain discrepancies in this regard. The researchers cannot be faulted because they were and are confronted with a highly complex hidden and interlocking organization and corporate structures.

3 And again due to civil and government action and pressure in February 1954, Scientology moved back to Phoenix, Arizona (616 North 3rd Street) and then on to Washington, D.C. (1812 19th Street, N.W.)

NOTE: As an interesting sidelight. The existence of the religious corporations was a carefully guarded secret kept from the H.A.S.I. membership for several months for fear they would leave by the droves. We had to create a carefully designed propaganda campaign to slowly gain their acceptance that Scientology was a religion. There was a general resistance to the idea.

Among the many illegal and/or unethical practices Scientology engages in; (regardless of what their literature states and their protestations to the contrary) is their standard procedure to acquire as much information as possible on each and every member. I mean every possible detail of their personal, family, educational, financial and professional life.

The member is told that his file is completely confidential but in reality portions and sometimes copies of his complete file are sent to Scientology Headquarters in Los Angeles, East Grinstead, Sussex, England and their 350 foot ship "The Apollo" presently berthed at Tangiers, Morocco. Plus the files are open to many people within the Scientology Center the file originated from.

L. Ron Hubbard lives on that ship and runs Scientology from it.

When someone tries to leave Scientology, speaks out against it or commits a "Scientology Crime" that members file is used against him, to gain his silence, cooperation, money and to get him to rejoin.

Further his confidential file is used to harass, intimidate and coerce. Some of the ways are to reveal portions of his file to friends, family, creditors and employers.

If you need or wish additional information or documentation please feel free to contact me. Within the parameters of facts, truth and documents I offer you my fullest cooperation and assistance in this matter.
